Ms. Disney Haufe is a Traffic Engineer for Traffic Analysis & Design, Inc. Ms. Disney Haufe is responsible for project management and traffic engineering tasks including: traffic impact studies for various land uses, signal warrant studies, parking demand analyses, transportation planning studies, and traffic simulation modeling.

Ms. Disney Haufe has seven years of traffic engineering experience and has contributed to studies for clients in the public and private sectors. Notable projects in which she has been involved include a campus transportation master plan for the Edward Hines Jr. Veterans Affairs Hospital in Hines, Illinois; Interchange Feasibility Studies for Interstate 90 at Illinois Route 47, Interstate 94 at Illinois Route 176, and Interstate 88 at Illinois Route 47; Phase I study for I-90 at IL 47; transportation planning for the Chicago 2016 Olympic Bid; and the Downtown DeKalb Revitalization Study. In addition, she is proficient in the technical application of intersection capacity software for analysis of isolated intersections and of roadway networks or corridors, including those operating with a coordinated signal system.

Ms. Disney Haufe is extensively familiar with the requirements of several local, regional, and state transportation agencies within Illinois and has collaborated with jurisdictional staff on the submittal and approval of several studies during her tenure.

Specialties

- Traffic Impact Studies
- Traffic Simulation Modeling
- Parking Studies
- Transportation Planning Studies
- Data Collection and Analysis

Education

- B.S. in Civil & Environmental Engineering, University of Illinois at Urbana-Champaign, 2005

Certifications

- IL Professional Engineer, 2010
- Professional Traffic Operations Engineer, 2010

Professional Affiliation

- Institute of Transportation Engineers, Illinois Section
 - Secretary, 2012
 - Treasurer, 2011
 - Director of Student Affairs, 2009 – 2010
 - Student Scholarship Chair, 2005 – 2008
