Mr. Lee is a senior traffic engineer with Traffic Analysis & Design, Inc. His current responsibilities include corridor studies, intersection control evaluations (ICE), traffic impact studies, safety assessments, conceptual design comparisons and traffic signal design.

Don has a diverse background in the planning and design of transportation facilities with over eighteen years of work experience including WisDOT project management, roadway conceptual and final design, construction inspection, traffic signal design; and traffic analysis of unsignalized and signalized intersections. Mr. Lee also teaches traffic engineering courses for the University of Wisconsin-Madison. His well-rounded design experience helps him identify feasible, constructible and cost-efficient transportation solutions.

Don has extensive experience having worked on many high profile politically sensitive projects in SE Wisconsin over his career including the demolition of the elevated Park East freeway and construction of a replacement roadway in Milwaukee's CBD, the construction of Canal Street within the cities Menomonee Valley, the construction of the Lake Parkway in southeast Milwaukee and the construction of the Jobs Corridor project spanning the border of the City of Milwaukee and the Village of Menomonee Falls. Don has completed over 25 PS&E packages for various WisDOT design projects. His strong people skills allow him to identify, gain consensus on and implement solutions for complex transportation projects.

Specialties

- Corridor Studies
- Intersection Control Evaluations
- Traffic Impact Studies
- Conceptual Design Comparisons
- Pedestrian Safety Studies
- Traffic Signal Design

Education

- BS Civil Engineering, University of Wisconsin - Milwaukee, 1994
- BBA Marketing & Finance, University of Wisconsin - Milwaukee, 1988

Certifications

- Professional Engineer, 2002
- WisDOT SE Region Certified TIA Preparer (SE05-804-046)

Professional Affiliation

- Institute of Transportation Engineers, Wisconsin Chapter
- American Public Works Association, Wisconsin Chapter
- Tau Beta Pi National Engineering Society
